Good morning, Maria.

I work with ADEQ's Safe Drinking Water Capacity Development Program and unfortunately do not have much in the way of guidance or answers regarding your requests, as they pertain to groundwater rules and regulations.

I recommend checking out our Groundwater Protection Program's page [here](#) and reaching out to the contacts on that page.

Alternatively, you may submit an environmental concern or complaint [here](#).

Let me know if you have any questions.

Regards,

--
