Maria,

Thank you for reaching out. I am no longer with the Aquifer Protection Section, so I can not speak to the project's status. I have included Wendy Eikenberry, Permits Unit Manager, and David Kim, Ground Water Protection - Industrial & Mining Section Manager, to address your groundwater questions. In your email from yesterday, you asked about the status of air quality related items, which I can address. To date, ADEQ has not received an air quality permit application for this project. If they do move forward with this project, and submit an application, that is something you can request through our [records center](#). We have not had any recent conversations with this facility.

Sorry for the delayed response, I was out of the office Monday and Tuesday. If there is anything else I can help you with, please let me know.

Regards,

**Tim Pippenger**  
**Manager of Air Permits and Compliance**  
**Arizona Department of Environmental Quality**
