Unable to Access ADEQ Permits in Process (PIP) Page

Hello Sam,

Thank you again for pointing me to the ADEQ Permits in Process (PIP) page.

Unfortunately, I have been unable to access the ADEQ website. Each attempt results in a Cloudflare message stating **"Sorry, you have been blocked."** (See attached screenshot).

This has occurred both while I was in Yuma and while traveling.

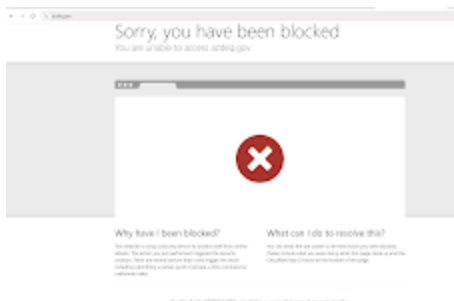

Would you happen to know if there is an alternative way to access the PIP information, or another report or resource that provides the same information?

Please advise and again thank you for your help.

Best regards,

Maria Coffee
